

6 Ranch

Since 1884

Enterprise, Oregon

100 % Grass-Fed Beef

Our family raises Corriente cattle which are a choice of beef for Ark of Taste, Slow Food USA. Corriente are an ancient breed that has evolved without human "management", so they are as close to natural as possible. Our calves receive their calf-hood vaccinations, and that is the only time we interfere with their own ability to be healthy. We don't use any sprays or fertilizer on our pastures, so we are very confident in the quality of meat that we provide for people to enjoy.

How much freezer space will I need?

A **Quarter** requires about 3.5 cf, which is the same size in most freezer/refrigerator standard units.

A **Half** will easily fit into a small chest freezer (5 – 7cf)

A **Whole** will be delivered to you in 4 - 5 boxes and will require a large chest freezer.

2011 Beef Order Form

Name: _____

Address: _____

Phone: _____

E-mail: _____

— One Quarter Beef
